

# Funding Support to External Organisations

Palmerston North City Council recognises the expertise, commitment and relationships that exist in the community. Council seeks to build on those existing and potential areas of excellence in Palmerston North that make the City a great place to live, work and play. Funding is one way to make this happen.

Funding to external organisations supports six primary purposes. These purposes set out the general objectives against which funding decisions will be made by Council. They are:

1. To support the establishment and development of new projects or activities that benefit the community of Palmerston North;
2. To support and boost existing economic development, growth and attractiveness of the City to both visitors and potential migrants;
3. To support and develop both new and existing leisure, arts and cultural activities available to people in the City;
4. To support the ongoing development of both new and existing not-for-profit organisations that provide local solutions to local problems;
5. To ensure the sustainable development of a growing City;
6. To supplement but not replace other external funding sources.

All Community funding is for organisations that have a not-for-profit status.

There are a number of mechanisms by which organisations receive funding from the Council. The mechanisms that are covered in the Annual Plan are:

- Council Controlled Organisations
- City Coordinating Services (coordination of whole sectors)
- Fees for Service (purchase service agreements)
- Grants (contributions to great organisations)
- Targeted Funds (funds that organisations can apply to for specific projects)
