Dear Simon

Re: Abby Rd gully earth platform

I refer to your email dated 15 May 2020 upon which you request a plan showing location and the ground contour. Please see enclosed prepared by Mark Trainor of Pirie Consultants Limited. The area to be earth filled is 500m² and height of 1.5m above the contour lines.

Please advise if that proposed does not satisfy the District Plan.

Please respond via email.

Best Regards
Les Fugle
