## JOINT REPORT OF CHAIRMAN & CHIEF EXECUTIVE OFFICER FOR THE SIX MONTHS ENDING 31 DECEMBER 2017

The first six months of the 2017/18 financial year has been dominated by the delivery of additional carpark and associated facilities, and the commencement of construction of the \$5 million aviation training facility for the Massey School of Aviation.

The Board and Management of Palmerston North Airport Limited (PNAL) continue to implement the Company's strategy. We strive to be the leading regional airport in New Zealand. The vision reflects the importance that Palmerston North Airport places on proudly portraying our regional identity and to the range of airport facilities and services offered to regional residents and visitors alike.

The vision also reflects our desire to work closely with a wide range of stakeholders both from a business and visitor perspective, and our regional communities and iwi.

In the twelve months to December 2017, Palmerston North Airport accommodated 635,896 travellers, an increase of 7.5% on the prior twelve month calendar year. Recently completed airport infrastructure projects together with facility enhancements have enabled the airport to keep ahead of passenger growth and continue to offer a spacious and customer friendly regional airport experience.

Achievements within the six-month period include the opening of the Long Stay Car Park, offering the lowest airport car parking prices available at any airport within the lower North Island. Online car park booking was also launched during the period and has proven extremely popular. The airport's Valet car park was also opened during the period. Offering a concierge service, and undercover pick up and drop off with direct internal access to the terminal, the car park appeals to travellers seeking a quick and efficient car parking experience. Planning continues for the upgrade of the General Car Park including improvements to the terminal – car park interface.

Commercialisation of Ruapehu Business Park commenced during the period. A development masterplan has been completed and will inform investment decisions within the 20-hectare business park located on Airport Drive. Construction of the \$5 million Massey Aviation training facility commenced during the period, with Stage 1 due for completion by June 2018.

Pavement upgrades and planning have continued throughout the period, while planning has been completed for a new Rescue Fire Facility, with construction to commence in March 2018.

December witnessed the official opening and blessing by Rangitāne of the Airport's portrayal of the Legend of Haunui. The legend which holds special significance to regional iwi, has been adopted by the Airport as a means of portraying our sense of place within the wider region. The contemporary display including wall art and carvings created by four artists of Rangitāne descent now proudly greets arriving and departing travellers.

Management resource was boosted during the period with the recruitment of specialist civil engineering and health and safety expertise. This has enabled dedicated attention to be placed on airside infrastructure maintenance and upgrades, passenger facilities, and safety and security.

A renewed focus on energy efficiencies and waste minimisation also commenced during the period. The installation of LED terminal lighting, and a replacement Building Management System have contributed to a reduction in energy consumption. The construction of a waste storage facility will enable additional on-site waste sorting and a reduction in waste to landfill.

Revenue of \$4.262 million was within 1% of budget and 16% ahead of last year. The delayed opening of the Valet Car Park contributed to the revenue shortfall. Management continues to focus on cost reductions, with total operating costs of \$2.216 million representing a 3% saving versus budget.

EBITDA of \$2.046 million was 1% ahead of budget, and 12% ahead of last year.

Net surplus after taxation of \$0.846 million was 34% above budget, and 17% above last year, with the timing of capital works a contributor to this improvement over budget.

An on-budget EBITDA and Net Profit after tax result is forecast by financial year-end.

All statutory requirements relating to the Airport have been met, including successful completion of independent audits by the Civil Aviation Authority, during the first six months of the year. These were also supported by continuing monthly internal audits and quality control checks undertaken by an independent body.
