Hearing

Do you want to speak to Council in support of your submission?	No
--	----

Demographic information

Age	I prefer not to say
Do you live within the Palmerston North City Council boundary?	Yes
Does Palmerston North City Council provide your drinking water and/or wastewater?	Yes
Are you a Palmerston North City Council trade waste and/or commercial water customer?	No

Let's find out more about what matters to you

Please tick which six things matter most to you when considering what happens to water service delivery:

Innovation (Using new ideas and technologies to make water services more efficient and sustainable.)

Consistent water service (Either the same or improved water services.)

Growth planning (Preparing water services for population growth.)

| Let's find out what you think about the options

Rank the options

Option 1: 'The four' – A water organisation jointly owned by Palmerston North City Council, Horowhenua, Manawatū, and Kāpiti Coast District Councils.: 3

Option 2: 'The up to 6': A water organisation jointly owned by Palmerston North City Council and one or more other councils within the Horizons Regional Council boundary. : 2

Option 3: Status quo with changes (not financially sustainable and therefore it's not legally compliant).: 1

| Option 1

Please tell us what you like about this option

Nothing

Please tell us what you don't like about this option

Other councils don't want to be in an organisation jointly owned by us is the first reason, and the second is why do we want to pick up other councils' issues they have with water supply. We have managed perfectly well in the past.

| Option 2

Please tell us what you like about this option

Nothing

Please tell us what you don't like about this option

Why do we want to pick up other councils' issues they have with water supply.

| Option 3

Please tell us what you like about this option

We have managed this well for the past 100+ years so why change. If the council was to cease wasting money on unnecessary projects such as approved in the last 10 year plan there would be more than enough money in the pot to pay for water and sewerage upgrades as required. Get your priorities sorted!

| How did you find out about this opportunity to have your say?

Hearing

Do you want to speak to Council in support of your submission?	No
--	----

Demographic information

Age	40-49
-----	-------

Do you live within the Palmerston North City Council boundary?	Yes
--	-----

Does Palmerston North City Council provide your drinking water and/or wastewater?	Yes
---	-----

Are you a Palmerston North City Council trade waste and/or commercial water customer?	No
---	----

Let's find out more about what matters to you

Please tick which six things matter most to you when considering what happens to water service delivery:

Innovation (Using new ideas and technologies to make water services more efficient and sustainable.)

Community influence (Residents ability to shape water services decisions and there be transparent decision making.)

Growth planning (Preparing water services for population growth.)

Climate resilience (Water services continue - and improve on - mitigating climate change, eg, against flooding.)

Environmental benefits (Improving outcomes for the environment.)

Let's find out what you think about the options

Rank the options

Option 1: 'The four' – A water organisation jointly owned by Palmerston North City Council, Horowhenua, Manawatū, and Kāpiti Coast District Councils.: 1

Option 2: 'The up to 6': A water organisation jointly owned by Palmerston North City Council and one or more other councils within the Horizons Regional Council boundary. : 2

Option 3: Status quo with changes (not financially sustainable and therefore it's not legally compliant).: 3

Option 1

Please tell us what you like about this option

It may help with costs especially for larger families

Option 2

Please tell us what you like about this option

It keeps it local and could also help keep costs down to the public

Option 3

Please tell us what you like about this option

Nothing

Which councils would you like to see Palmerston North work with for future water services?

Horowhenua, Manawatu, Wanganui, Ruapehu

Please share any other feedback you have about water service delivery in the future

Look at how people use water and provide information to government housing.

How did you find out about this opportunity to have your say?

Hearing

Do you want to speak to Council in support of your submission?	No
--	----

Demographic information

Age	30-39
Do you live within the Palmerston North City Council boundary?	No
Does Palmerston North City Council provide your drinking water and/or wastewater?	No
Are you a Palmerston North City Council trade waste and/or commercial water customer?	No

Let's find out more about what matters to you

Please tick which six things matter most to you when considering what happens to water service delivery:

Future water costs and investment (how much will you pay for water? Can the Council continue to make major investment in water infrastructure?)

Maintaining non-water services (Can the Council still deliver services like roads, recycling, parks and libraries?)

Innovation (Using new ideas and technologies to make water services

more efficient and sustainable.)

Consistent water service (Either the same or improved water services.)

Growth planning (Preparing water services for population growth.)

Climate resilience (Water services continue - and improve on - mitigating climate change, eg, against flooding.)

Let's find out what you think about the options

Rank the options

Option 1: 'The four' – A water organisation jointly owned by Palmerston North City Council, Horowhenua, Manawātū, and Kāpiti Coast District Councils.: 3

Option 2: 'The up to 6': A water organisation jointly owned by Palmerston North City Council and one or more other councils within the Horizons Regional Council boundary. : 2

Option 3: Status quo with changes (not financially sustainable and therefore it's not legally compliant): 1

Option 1

Please tell us what you like about this option

Cheaper for PNCC residents.

Please tell us what you don't like about this option

Expecting MDC to fund PNCC water infrastructure. MDC has indicated they do not prefer this option as they have invested into their own water infrastructure. MDC do not have this as their preferred option, so unlikely to gain traction.

Option 2

Please tell us what you like about this option

Potential for increased sharing amongst a greater number of regions. Open to regions that actually want to have shared infrastructure, rather than those that do not.

Please tell us what you don't like about this option

Challenges associated with maintaining infrastructure within a wider geographical area and with a larger number of parties.

Option 3

Please tell us what you like about this option

Independent control over the city's water infrastructure.

Please share any other feedback you have about water service delivery in the future

As a landlord with a property in PNCC boundary I appreciate the desire to reduce costs for PNCC residents, but given I live within the MDC boundary, I am not interested in MDC having to fund PNCCs water infrastructure.

How did you find out about this opportunity to have your say?

Hearing

Do you want to speak to Council in support of your submission?	No
--	----

Demographic information

Age	50-59
Do you live within the Palmerston North City Council boundary?	Yes
Does Palmerston North City Council provide your drinking water and/or wastewater?	Yes
Are you a Palmerston North City Council trade waste and/or commercial water customer?	No

Let's find out more about what matters to you

Please tick which six things matter most to you when considering what happens to water service delivery:

Future water costs and investment (how much will you pay for water? Can the Council continue to make major investment in water infrastructure?)

Maintaining non-water services (Can the Council still deliver services like roads, recycling, parks and libraries?)

Consistent water service (Either the same or improved water services.)

Cultural input (Ensuring mana whenua involvement in water decisions.)

Climate resilience (Water services continue - and improve on - mitigating climate change, eg, against flooding.)

Environmental benefits (Improving outcomes for the environment.)

Let's find out what you think about the options

Rank the options

Option 1: 'The four' – A water organisation jointly owned by Palmerston North City Council, Horowhenua, Manawātū, and Kāpiti Coast District Councils.: 1

Option 2: 'The up to 6': A water organisation jointly owned by Palmerston North City Council and one or more other councils within the Horizons Regional Council boundary. : 2

Option 3: Status quo with changes (not financially sustainable and therefore it's not legally compliant).: 3

Option 1

Please tell us what you like about this option

As long as there is harmonisation of costs across the "four" in terms of costs, this is the preferred option.

Option 2

Please tell us what you don't like about this option

Too many councils involved with quite different needs and issues. It would seem a challenge to get consensus and consistent rates.

Option 3

Please tell us what you don't like about this option

Not an option as it's not sustainable.

How did you find out about this opportunity to have your say?

Hearing

Do you want to speak to Council in support of your submission?	No
--	----

Demographic information

Age	60-69
Do you live within the Palmerston North City Council boundary?	Yes
Does Palmerston North City Council provide your drinking water and/or wastewater?	Yes
Are you a Palmerston North City Council trade waste and/or commercial water customer?	No

Let's find out more about what matters to you

Please tick which six things matter most to you when considering what happens to water service delivery:

Future water costs and investment (how much will you pay for water? Can the Council continue to make major investment in water infrastructure?)

Maintaining non-water services (Can the Council still deliver services like roads, recycling, parks and libraries?)

Funding other city priorities (Can the Council still arrange financing to

enable it to invest in key projects like transport and seismic upgrades?)

Consistent water service (Either the same or improved water services.)

Community influence (Residents ability to shape water services decisions and there be transparent decision making.)

Let's find out what you think about the options

Rank the options

Option 1: 'The four' – A water organisation jointly owned by Palmerston North City Council, Horowhenua, Manawatū, and Kāpiti Coast District Councils.: 1

Option 2: 'The up to 6': A water organisation jointly owned by Palmerston North City Council and one or more other councils within the Horizons Regional Council boundary. : 2

Option 3: Status quo with changes (not financially sustainable and therefore it's not legally compliant):. 3

Option 1

Please tell us what you like about this option

Four well established entities in a more geographically restrained land area, with a larger population base to support the entity operations

Please tell us what you don't like about this option

Is more centralised, and doesn't help our other neighbours that have less financial or population based assets that may not provide what is needed in the more rural areas

Option 2

Please tell us what you like about this option

Provides more support and a greater asset base for the greater region, to those who could potentially lose out, or become disadvantaged by not being part of the larger entity

Please tell us what you don't like about this option

Is a lot larger area, less population focused, with more resources and assets needed for the larger area, therefore potentially more cost

Option 3

Please tell us what you like about this option

Desirable to be our own entity, maintaining what 'we' and our forebears worked to achieve.

Please tell us what you don't like about this option

Financially, we need the greater entity to achieve what we need to grow and be compliant and could see costs become prohibitive in a society where many find it hard to survive anyway.

Please share any other feedback you have about water service delivery in the future

Planning for expansion and maintenance of our city is crucial to avoid being in a situation similar to what Wellington (and Auckland) is dealing with, with failing infrastructure. Palmy has been proactive (mostly!) with our infrastructure and has set a reasonable standard, yet more needs to be done.

Let's find out what you think about the options

Please score the options from 1-3, with 1 being your preferred option, and 3 being your least preferred option.

- 2** **Option 1:** 'The Four' - A water organisation jointly owned by Palmerston North City Council, Horowhenua, Manawatū, and Kāpiti Coast District Councils.
- 1** **Option 2:** 'The up to 6': A water organisation jointly owned by Palmerston North City Council and one or more other councils within the Horizons Regional Council boundary.
- 3** **Option 3:** Status quo with changes (not financially sustainable and therefore it's not legally compliant).

Please tell us more about your thoughts on these options

Option 1: 'The Four' – A water organisation jointly owned by Palmerston North City Council, Horowhenua, Manawatū, and Kāpiti Coast District Councils.

Please tell us what you like about this option

Please tell us what you don't like about this option

I don't like this option because it includes Horowhenua & Kāpiti Coast – their water catchment is not the same as ours in PNCC. It seems that this option crosses a lot of iwi boundaries.

Option 2: 'The up to 6': A water organisation jointly owned by Palmerston North City Council and one or more other councils within the Horizons Regional Council boundary. These ~~6~~ councils could include Palmerston North City Council, Whanganui District Council, Rangitikei District Council, Ruapehu District Council, Horowhenua District Council and Manawatū District Council.

Please tell us what you like about this option

It leaves the options open for six councils. While these councils are geographically close & that is something you stress, it would be fairer to join with one largely rural council so that they get the 'faster response time' and 'access to efficiencies' that are listed in the brochure p.8. This is another ~~and~~ reason I would go for Tararua D.C.

Please note people from Tararua D.C. already come to PN for shopping, work and education & we have strong community ties.

Please tell us what you don't like about this option

While these councils listed are in the Horizons region, they don't have the catchment of the Manawatū at their heart. The brochure doesn't say what iwi whānua think about this. The proposal should consult them.

I wouldn't approve of an option that included Whanganui, Ruapehu & Rangitikei because they have different catchments.

Page 3 of the brochure doesn't really address Tararua D.C. as an option.

Option 3: Status quo with changes (not financially sustainable and therefore it's not legally compliant).

Please tell us what you like about this option

I would have preferred the Labour government's plan where funding would have been forthcoming. I like the status quo except that I dislike the idea of further bones tapping into aquifers under the city.

Please tell us what you don't like about this option

Which councils would you like to see Palmerston North work with for future water services? This could include councils named in this document, or others.

- a) PNCC
b) Manawatu D.C.
c) Tararua D.C.
- } based on the catchment of the Manawatu River. See the attached Water Catchment Map which PNCC put out for consultation at some time in the past

Please share any other feedback you have about water service delivery in the future

I think that Council should be working towards achieving person status for the Manawatu River like Te Anau / Whanganui River.

☒

(You are a business that pays for metered water and/or trade waste separately to your rates.)

We're asking for some specific information about you to see if there is a difference in opinion between different groups of people.

Would you like to come to a hearing and speak to Elected Members about your submission?

Yes

☒

Been

No

☐

If you ticked yes, we'll be in touch to confirm the date and time.

Let's find out more about what matters to you

Please tick which six things matter most to you when considering what happens to water service delivery.

☐ **Future water costs and investment**

How much will you pay for water?

Can the Council continue to make major investment in water infrastructure?

Water is a necessity pay whatever

☐ **Maintaining non-water services**

Can the Council still deliver services like roads, recycling, parks, and libraries?

need to

☐ **Funding other city priorities**

Can the Council still arrange financing to enable it to invest in key projects like transport and seismic upgrades?

need to

☐ **Innovation**

Using new ideas and technologies to make water services more efficient and sustainable.

agree

☐ **Consistent water service**

Either the same or improved water services.

agree

☐ **Cultural input**

Ensuring mana whenua involvement in water decisions.

need to

☐ **Community influence**

Residents' ability to shape water services decisions and there be transparent decision making.

consult

☐ **Growth planning**

Preparing water services for population growth.

Necessary

☐ **Climate resilience**

Water services continue to, and improves on mitigating climate change (eg: against flooding).

imperative

☐ **Environmental benefits**

Improving outcomes for the environment.

necessary

☐ **Other** (please state)

Let's find out what you think about the options

Please score the options from 1-3, with 1 being your preferred option, and 3 being your least preferred option.

Option 1: 'The Four' – A water organisation jointly owned by Palmerston North City Council, Horowhenua, Manawatū, and Kāpiti Coast District Councils.

First option

Option 2: 'The up to 6': A water organisation jointly owned by Palmerston North City Council and one or more other councils within the Horizons Regional Council boundary.

Second option

Option 3: Status quo with changes (not financially sustainable and therefore it's not legally compliant).

Not an option

Please tell us more about your thoughts on these options

Option 1: 'The Four' - A water organisation jointly owned by Palmerston North City Council, Horowhenua, Manawātū, and Kāpiti Coast District Councils.

Please tell us what you like about this option

This option is best because it has larger population to share extra costs with.

Please tell us what you don't like about this option

It is required by Govt regulation and a new/change of Govt would probably see change

Option 2: 'The up to 6': A water organisation jointly owned by Palmerston North City Council and one or more other councils within the Horizons Regional Council boundary. These 6 councils could include Palmerston North City Council, Whanganui District Council, Rangitikei District Council, Ruapehu District Council, Horowhenua District Council and Manawātū District Council.

Please tell us what you like about this option

It spreads costs over more population

Please tell us what you don't like about this option

The area is not as good as proposed by option 1 because it covers areas that are not similar to option 1 eg Whanganui River does not affect optimal area at all

Option 3: Status quo with changes (not financially sustainable and therefore it's not legally compliant).

Please tell us what you like about this option

Difficult to do so, all I can imagine is
P N City Council in financial strife

Please tell us what you don't like about this option

Cost to local Rate Payers

Which councils would you like to see Palmerston North work with for future water services?
This could include councils named in this document, or others.

Only those named in option 1 please

Please share any other feedback you have about water service delivery in the future

Thanks for the chance to have input
for Councillors to consider.
