Community support plan

We want a strong and connected community, where diversity is celebrated.

For-purpose organisations are strong and resilient when they have stable governance, appropriate funding, volunteer support, and time to build relationships and learn from others. We understand that communities are best placed to identify, understand, and develop solutions to meet their own needs. We will promote community wellbeing through transparent and fair access to funding and support. A community-led development approach underpins our work.

Nine community centres provide places for people to meet and take part in community activities. Each of these centres has a different operational model and meets different needs. Caccia Birch provides a place for communities to meet, and Hancock Community House is a central hub for community services.

We want community facilities to respond to community needs. We will support community centres and facilities to promote community wellbeing. We will support community initiatives and aspirations for better community outcomes, including through kai security, place-based development, events, and emerging needs.
