This is a submission on an application from:

(Name of applicant) Good Earth Matters Ltd (GEM) on behalf of A. Ro ckt

for a Resource Consent for (briefly describe activity and type of resource consent) Landuse consent

to expand the Quarry Operation

at (Resource Consent address) 167-251 Kendalls Line

(Ref: LU 6962 + MWRC APP-2022203991.00)

My submission is: (Choose from the following)

I support the application

I am neutral to the application

I oppose the application

My submission relates to the entire application, or

My submission relates to the following specific parts of the application: _____

I wish/~~do not wish~~ (delete one) to be heard (speak) at any subsequent hearing

I wish to have the following parts amended: _____

The reasons for my views are: (if necessary please attach additional page(s) to this submission)

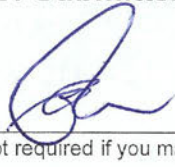

As per consent application 5.1.1 District council conditions > .19 Noise mitigation and point 21. Dust. We have been offered in confidence compensation towards mitigating the impacts prior to the consent being lodged. This offer has now been withdrawn by Hi Rock. The noise and dust discomfort remains the same. This should be addressed. Whilst the condition of the road has been addressed, tyre noise/noise in general has increased due to the surface type.

I seek the following decision from the Palmerston North City Council: (Give details including the nature of any conditions sought)

- > To instruct Hi Rock to compensate landowners appropriately (in full) for noise and dust mitigation, as well as additional vegetation to mitigate the effects of noise and dust.
- > Seeing as the applicant has made this offer initially, it does not appear fair and reasonable from their side to withdraw the offer based on their statements that they want to work collaboratively with landowners.

If others make a similar submission I will consider presenting a joint case with them at the hearing (Delete if you would not consider presenting a joint case)

Subject: Submission - Landuse consent to expand the quarry operation [Ref: LU6962 + MWRC APP-2022203991.00]
Attachments: Quarry Consent.pdf

Good afternoon,

Kindly confirm receipt of this email.

Form 13 attached for reference.

Our submission is:

- We oppose the application
- Our submission relates to the entire application
- We wish to be heard (speak) at any subsequent hearing

The reason for our views are:

As per consent application 5.1.1 District council conditions, point 19 "Noise Mitigation" and point 21 "Dust". We have been offered (in writing) in confidence compensation towards mitigating the impacts of noise and dust to our property prior to the consent being lodged, meaning HiRock acknowledged and accepted our concerns as valid. This offer has now been withdrawn by HiRock. The noise and dust discomfort and concerns remain the same. This should be addressed. Whilst the condition of the road has been addressed, tyre noise/noise in general has increased due to the road surface type.

We seek the following decision from the Palmerston North City Council:

To instruct HiRock to compensate landowners appropriately (in full - as per the quotes I was requested to obtain) for noise and dust mitigation, as well as additional vegetation to mitigate the effects of noise and dust. Seeing as the applicant has made this offer initially, it does not appear fair and reasonable from their side to withdraw the offer based on their statements that they want to work collaboratively with landowners on the consent application.

If others make a similar submission, we will consider presenting a joint case with them at the hearing.

Kind regards,
Chris and Ilze Bekker, [REDACTED]

I wish to have the following parts amended: TRUCK MOVEMENTS, DUST MITIGATION, PROTECTION OF NIKAU PALMS

The reasons for my views are: (if necessary please attach additional page(s) to this submission)

We have been subjected to extraordinary numbers of trucks over the 21/22 summer period that had a huge impact on our health, safety and general wellbeing. The numbers of trucks proposed is vastly increased from that volume we experienced for approximately 5 months continuous. We simply cannot live in that environment. Excessive noise, dust and diesel fumes making affecting our living environment is not sustainable.

I seek the following decision from the Palmerston North City Council: (Give details including the nature of any conditions sought)

Substantial reduction in proposed truck numbers and should not exceed the current consent.
Vastly improved methods of dust control.
Further informed decisions on the fate of Nikau forest
Limits on the type of trucks used (ie. No exhaust brakes)

If others make a similar submission I will consider presenting a joint case with them at the hearing (Delete if you would not consider presenting a joint case) *I will be presenting on behalf of some affected community members*

The reasons for my views are: (if necessary please attach additional page(s) to this submission)

We are long time residents of the road
If the amount/number of large trucks on the road
is to increase then the constant noise would
become worse.
Therefore we would say to neutralise these effects
would be for our lounge windows to be double
glazed which we would reasonably expect HiRock
to bear this cost.
