CEO,  
Dear Sir URGENCY IS REQUIRED,  
I have indicated to the NZX 9/10/2017 Email that you are Trading Shares from,  
Meridian, Trust Power, Contact, Mercury, Genesis Power Companies that ALL have Wind Farms in their Port Folios.  
It is imperative that these "available Shares" be completely Suspended from any profitable activity, on the basis that  
it is Immoral and Exceptionally Fraudulent, to entice Buyers and Sellers to Negotiate through the NZX to create  
profit on dealing with Energy Shares that is Firstly ILLEGAL, Secondly is Asynchronously Produced and Thirdly has no  
Intrinsic Value for the End Consumer to Utilise via the Standardised Manufactured Appliances.  
NZX has no Integrity or Honesty if a Suspension Order is not Instigated within the Next 24 Hours.

These Wind Farm Share Units on Offer is Technically and Operationally completely USELESS.

On this Proven Basis includes all Share Offering within the Emission Trading Schemes, should also CEASE.

Your Organisation owes it to the People of New Zealand and the World, that they are Comfortable in knowing that  
you are Operating an Honest and Unquestionable Honourable Operation.

I look forward to your Urgent Reply, on behalf of all of the Worlds Consumers, whom every single minute of the day  
is Paying for a Falsely Inflated Value for a Unit of USELESS Power that is being Produced by Asynchronous Wind  
Farms, that have been Promoted as Equal to the normal Synchronous Produced Unit of Power which are the only  
ones that should be traded by NZ X.

NZX Operational Future will be exposed if nothing is not done to Correct this perfect "Ponzi Scheme" of trading on a  
product, that is using the Free wind that nobody can use in the END.

Yours Faithfully
