**Subject:** Final Submission Timeline

Dear Carly,

The Panel Deliberations Finality must ensure that their Priorities are not within the Sound Audio Submissions that have been Disputed, but is only with the Legitimacy of the Actual Operational Product that all Wind Farms are selling to the National Grid System which includes T.R.H.

The fact that they are Asynchronous in operation, implies that they can never Supply the Grid Systems Standardised 50 Hertz Energy to any Consumer, and it is on this basis that they are purporting to sell only the Derivative of that Frequency called Harmonic Energy to PNCC.

Every Country in the World have Law Statutes to Restrict and Limit any Development of HARMONICS as they have no usefulness to any Consumers Manufactured Appliances whatsoever, or the Grid System as a whole.

The Panel has no other choice to take, now Knowing that the Palmerston North City Council License to TRH Wind Farm Ltd has never been fulfilled to Supply Legitimate 50 Hz Energy over the Last Ten Years, so will give an Order to have the Wind farm Completely Shut down.

I wish the Panel Prudence and Wisdom in their Deliberations.

Submitter

Bill Harding
